Faraday Future Global President, Jerry Wang, will represent the Company at the upcoming Global Capital Network (GCN) Investor Conference, taking place on June 19, 2025, in Newport Beach.

The GCN Investor Conference brings together more than 400 entrepreneurs, startups, private equity firms, venture capitalists, angel investors, and family offices for a full day of dealmaking, networking, and high-impact exposure. Jerry Wang will participate in a featured segment on the event's main stage, delivering a presentation followed by investor Q&A session. His presentation time will be at 3:27pm PT on June 19. A link to the meeting can be accessed here: https://completionfund.us3.list-manage.com/track/click?u=3560410197b5d88def17d7e8b&id=0790b47a37&e=f819d7e286

Jerry Wang is expected to highlight Faraday Future's AI-driven mobility solutions, update the latest progress under the FX brand, and share strategic priorities and initiatives planned for 2025. The session will be broadcast live to GCN's global investor network via Zoom.

As part of GCN's official media programming, Jerry Wang will also appear in a Press Wall interview, which will be filmed and published across the GCN's digital channels, including its YouTube platform.

In addition to the speaking engagements, Faraday Future will host a full-day information booth and product showcase, offering attendees a firsthand look at FF 91 2.0. Guests will also have the opportunity to experience a test ride of the FF 91 on-site.

"We're excited to join the GCN community and introduce both FF 91 2.0 and FX Super One to a highly engaged audience of investors and industry leaders," said Jerry Wang, Global President of Faraday Future. "The conference offers a valuable platform to share our progress, build new relationships, and demonstrate the innovation and product quality that define our team's work."

The Global Capital Network Investor Conference is recognized for connecting high-growth companies with accredited investors through curated presentations, private meetings, and interactive product experiences. For more information about the conference, visit here.

ABOUT FARADAY FUTURE

Faraday Future is a California-based global shared intelligent electric mobility ecosystem company. Founded in 2014, the Company's mission is to disrupt the automotive industry by creating a user-centric, technology-first, and smart driving experience. Faraday Future's flagship model, the FF 91, exemplifies its vision for luxury, innovation, and performance. The FX strategy aims to introduce mass production models equipped with state-of-the-art luxury technology similar to the FF 91, targeting a broader market with middle-to-low price range offerings. FF is committed to redefining mobility through AI innovation. Join us in shaping the future of intelligent transportation. For more information, please visit https://www.ff.com/us/.

FORWARD LOOKING STATEMENTS

This press release includes "forward looking statements" within the meaning of the safe harbor provisions of the United States Private Securities Litigation Reform Act of 1995. When used in this press release, the words "plan to," "can," "will," "should," "future," "potential," and variations of these words or similar expressions (or the negative versions of such words or expressions) are intended to identify forward-looking statements. These forward-looking statements, which include statements regarding plans and projections for the FX brand, including by not limited to the planned Super One, are not guarantees of future performance, conditions or results, and involve a number of known and unknown risks, uncertainties, assumptions and other important factors, many of which are outside the Company's control, that could cause actual results or outcomes to differ materially from those discussed in the forward-looking statements. Important factors, among others, that may affect actual results or outcomes include, among others: the ability to convert pre-orders into sales, none of which are binding; market demand for MPVs and MPV rentals; the Company's ability to secure the necessary funding to execute on its AI, EREV and Faraday X (FX) strategies, each of which will be substantial; the Company's ability to design and develop EREV technology; the Company's ability to design and develop AI-based solutions; competition in the AI and EREV areas, where actual or potential competitors have or are likely to have substantial advantages relative to the Company, including but not limited to experience, expertise, funding, infrastructure and personnel; the ability of the Company to execute across multiple concurrent strategies, including the UAE, bridge strategy, or FX, EREV, AI, and US geographic expansion; the Company's ability to secure necessary agreements to license third-party range extender technology and/or license or produce FX vehicles in the U.S., the Middle East, or elsewhere, none of which have been secured; the Company's ability to homologate FX vehicles for sale in the U.S., the Middle East, or elsewhere; and the Company's ability to secure necessary permits at its Hanford, CA production facility; the potential impact of tariff policy; the Company’s ability to continue as a going concern and improve its liquidity and financial position; the Company’s ability to pay its outstanding obligations; the Company's ability to remediate its material weaknesses in internal control over financial reporting and the risks related to the restatement of previously issued consolidated financial statements; the Company’s limited operating history and the significant barriers to growth it faces; the Company’s history of losses and expectation of continued losses; the success of the Company’s payroll expense reduction plan; the Company’s ability to execute on its plans to develop and market its vehicles and the timing of these development programs; the Company’s estimates of the size of the markets for its vehicles and cost to bring those vehicles to market; the rate and degree of market acceptance of the Company’s vehicles; the Company’s ability to cover future warranty claims; the success of other competing manufacturers; the performance and security of the Company’s vehicles; current and potential litigation involving the Company; the Company’s ability to receive funds from, satisfy the conditions precedent of and close on the various financings described elsewhere by the Company; the result of future financing efforts, the failure of any of which could result in the Company seeking protection under the Bankruptcy Code; the Company’s indebtedness; the Company’s ability to use its “at-the-market” program; insurance coverage; general economic and market conditions impacting demand for the Company’s products; potential negative impacts of a reverse stock split; potential cost, headcount and salary reduction actions may not be sufficient or may not achieve their expected results; circumstances outside of the Company's control, such as natural disasters, climate change, health epidemics and pandemics, terrorist attacks, and civil unrest; risks related to the Company's operations in China; the success of the Company's remedial measures taken in response to the Special Committee findings; the Company’s dependence on its suppliers and contract manufacturer; the Company's ability to develop and protect its technologies; the Company's ability to protect against cybersecurity risks; and the ability of the Company to attract and retain employees, any adverse developments in existing legal proceedings or the initiation of new legal proceedings, and volatility of the Company’s stock price. You should carefully consider the foregoing factors and the other risks and uncertainties described in the “Risk Factors” section of the Company’s Form 10-K filed with the SEC on March 31, 2025, and other documents filed by the Company from time to time with the SEC.
